## About Generation

Generation is the world's largest and fastest-growing employment program of its kind by annual volume. As a charity, our mission is to transform education to employment systems to prepare, place, and support people into life-changing careers that would otherwise be inaccessible. Through our program adults of all ages - whether unemployed, underemployed, or needing to learn new skills - can connect to the training, support, and jobs to change their path.

Since our founding in 2015, we have supported over 38,000 individuals across 150 cities and 14 countries to gain transformative job training and placement opportunities in 29 different professions. Following a 4-12 week bootcamp, 86% of these individuals have been placed into work within 90 days, typically earning between 2-6X their income prior to Generation.

We also solve a wide range of employer challenges - skilled talent shortages, lackluster on-the-job performance, reskilling needs, and higher turnover in important roles - with our unique approach and our determined Kickstarters. Nearly 85% of employers say that Generation graduates on our other learning programmes outperform their peers on the job.
